Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

The frame house is a two-story frame structure on a high fieldstone foundation. It is built into a slope so that the main facade has a full-story at foundation level. The foundation level has a central entrance with a two-over-two sash windows in the outer bays. The first story has a side entrance with a full-length porch. The main section of the house is three-bays by two-bays and it has a three-bay ell. The frame structure is covered in modern aluminum siding. The structure appears to date from the late 19th century.

The property is located on the north side of Sandy Hook Road, approximately .12 mile east of Clark Road, in Sandy Hook. The house is on a gently sloping site so that the foundation level is a full story on the main facade. The main facade faces south.

The two-story structure is constructed of frame covered in aluminum siding on a fieldstone foundation. The main facade is asymmetrically arranged. The foundation level has a central entrance with a two-over-two sash windows in the outer bays. The first story has a side entrance. There are two-over-two sash windows in the outer bays of the first story and the three bays of the second story. The windows and door have plain trim. The front porch has a wire railing of early 20th century design. The structure has a boxed cornice and a sheet metal roof. There is an interior-end brick chimney at the west gable end.

8. Significance

Survey No. WA-III-077

Period	Areas of Significance—Check and justify below			
<input type="checkbox"/> prehistoric	<input type="checkbox"/> archeology-prehistoric	<input type="checkbox"/> community planning	<input type="checkbox"/> landscape architecture	<input type="checkbox"/> religion
